Dear John

I'm writing with regards to the above site, and the outstanding conditions discharge applications.

Application DM/23/3196 seeks the discharge of conditions 3,4,5,6,7 and 11 and 13 part discharge of condition 5 in relation to DM/20/4159. Conditions 3, 4 and 6 have been discharged. There are still outstanding queries in relation to the other conditions as set out in earlier e mails to you. I would be grateful if you could let me know if you wish to continue to have this conditions discharge application progressed, please. You have advised that it is no longer the intention to construct the development permitted under consent DM/20419 as the cost of constructing the basement car parking made the scheme unviable.

The same query applies to conditions discharge application DM/24/2951. Do you want this application to be determined since you have said that you will not be constructing the development permitted under consent DM/20/4159.

Finally, the same query also applies to conditions discharge application DM/25/0112.

I look forward to hearing from you.

Regards
