DM/26/0326

T8 and T9 Hornbeam - Crown reduction of 3m back to previous cut points.
Matthew Staines-Rebeiro**

Permission is sought for the works as described.

The trees are located in the rear garden and visibility is limited to views over roof tops. The trees grow closely and have a shared crown. They have been regularly and consistently pruned over the years to increase light to the rear garden and conservatory.

Works will repeat those previously carried out and will not impact unduly on the long term health or amenity value of the trees.

Permission is recommended.
