Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	It is my understanding that a concrete garage was approved in the seventies. I cannot understand why planning for a car port would now be declined considering the traffic flows in Hurstpierpoint the roads are getting busier and harder to navigate by drivers and pedestrians alike. This would be using the families own space (their garden) to create this space thus reducing congestion in the high street and creating a safer space for a young family who have already invested and increased the curb appeal of this property.

I fully support their application as a local who uses this traffic route frequently for work and leisure with my young family.

Kind regards
