Good evening, Emily,

Please find attached updated and additional drawings for the above site.

Please call or email if you have any queries or require any further information.

I will be on annual leave this Thursday until next Tuesday so please copy Zoe in at GBA on any correspondence. I have copied her in above.

Regards

Hayley

Dear Hayley

Thank you for your email and attached plan, which addresses the concerns raised in respect of the plan form of the ladies WC.

Thank you also for your agreement to an extension of time- as I am on leave next week and we are awaiting the further revised plans can I suggest Friday 15th August as the revised date? If you could please indicate your agreement by return email I would be grateful.

Kind regards,

Emily Wade

You don't often get email from hayleycannon24@hotmail.com. [Learn why this is important](#)

Good afternoon Emily,

We have spoken to our clients and the configuration to the ladies has been amended so that no partitions will go through any windows. It means reducing it from three to two cubicles but they are happy with this.

I attach an updated drawing showing this for now but further updated drawings will be issued once we have the information for the drainage routes and vents which will follow.

We can confirm that we agree to a short extension of time.

Regards

Hayley

Dear Hayley

Thank you for arranging access to the above site for me today.

Having reviewed the proposal for the new two new WCs and associated works I can confirm that I have no objection in principle in terms of the impact on the special interest of the listed building or the character and appearance of the East Grinstead Conservation Area. However, there are some points which are of potential concern with respect to the detail of the application, which will require further attention and/or amendment:

- there is no commentary either on the proposed plans or within the supporting statements with respect to any new internal or external pipework, soil stacks or vents which may be required. Can you please provide details in this respect, in particular highlighting any impact on the external appearance of the building, or on the internal or external fabric. If new pipework or vents are required to the elevations of the building, appropriate drawings should be provided.
- the proposed new female WC at ground floor involves blocking internally an existing window to the side of the building. Although the

window itself is shown as retained, this will have an adverse impact on the appearance of the building. I would suggest that the window is retained without the infill, but could be fixed shut and obscure glazed. I would recommend that revised plans are submitted to show this amendment to the proposal.

- the female WC also involves partially blocking the rear window to the room concerned, with the partition shown cutting through the window vertically. This is an awkward detail which will again detract from the appearance of the listed building, and requires amendment so that the window is not blocked or bisected by new partitioning.

I note that the existing target date for these applications is 1st August. If necessary, I would be happy to agree a short extension of time to allow for the above further information and revised plans to be provided. Please note that I am on leave from 1st August returning on 11th.

Kind regards,

Emily Wade
