Subject: Planning Application DM/25/3129 – Objection

[REDACTED]
Dear Mr King,

I refer to my previous objection submitted on 7th February 2026 in relation to the planning application DM/25/3129.

I have reviewed the revised plans and accompanying documentation, and while there have been minor amendments to the scheme, these changes do not materially alter the scale, nature, or fundamental impacts of the proposed development. As such, my previous objections remain fully relevant and are maintained in their entirety.

In summary, I continue to object to the proposal on the basis that it represents inappropriate development in the countryside and would result in unacceptable harm to landscape character, highway safety, biodiversity, drainage, infrastructure capacity, and residential amenity.

The revisions do not address the core issues previously raised, including the cumulative impact of development in the area and the lack of demonstrated capacity within local infrastructure.

I therefore wish to reaffirm my original objection in full and request that the application be refused.

Regards,
