Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I have objected today to DM/26/0950 Installation of new shopfront signage (illuminated fascia and vinyl sign). Subsequently I was surprised to find buried within the related documents an application for change of use. Surely this should have either been listed as a separate application or made explicit? (A number of people have commented that this hasn't been applied for.) I would like to additionally object specifically to the change of use on the grounds of inconsistency with the local area's character

and concern that this change will set a precedent leading to future negative developments.

Kind regards
