

DM/25/3131 and DM/25/3132

I am writing to support this application.

As a Lindfield resident, I disagree with the assessment from the previous applications that the development provides no public benefit. The works have visibly improved our High Street and conservation area - something the whole village enjoys, not just the property owner.

Properly maintaining our listed buildings benefits everyone. The planning balance should reflect this.

I hope the Council will approve this application.
