Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	We are in utter disbelief that the council are suggesting the installation of a 30 metre high tower. Not only is this ridiculously close to housing but will cause significant disruption to wildlife and the surrounding area. Are you aware of any side effects this may have on our well being, or indeed if this mast could potentially cause harm to the

environment?

I very much doubt that any councillor would like this monstrosity in the close vicinity of where they live, do you?

Until there is proof that this mast will not cause any Heath issues or any other problem, then this should not be erected.

Kind regards
