Subject: RE: DM/24/2968 - Crawley Down Village Hall, Turners Hill Road, Crawley Down

Thanks Katherine,

I've read through the updates.

Based on this I will submit updated comments recommending approval of condition 11, and that condition 12 can also be approved as it is no longer required.

Many thanks,

Ollie

Hi Katherine

Thanks for the comments from the contamination officer, please find attached a revised report, would you be able to substitute the attached for the previous revision?

The the following sections of the report have been updated:

- 6.1 additional paragraphs 3-9
- 6.2 additional paragraphs 3-5
- 6.3 additional paragraphs 3-4
- 6.5 revision of paragraph 1
- 7. PCSM table updated to include reference to adjacent site and previous remedial works
- 8. Revision of third bullet point and addition of final bullet point

Kind regards,

ANDY GAY

Comments Details

Comments:	I have reviewed the submitted Phase 1 Desktop Study, which concludes that there is no significant potential for contamination on the site. However, I have identified an issue that requires further consideration.
	On page 4, under section 4.4, the report references a vehicle repairers located 29 metres to the north-west of the site but does not provide any further commentary or assessment regarding potential risks associated with this land use. As stated in my original comments when recommending the inclusion of the contaminated land condition, this garage was adjacent to the site. Our records indicate that a Phase 2 Ground Investigation Report and Supplementary Environmental Assessment were submitted with application DM/19/2651 for the former Palmers Autocare. These assessments identified elevated levels of PAH, lead and hydrocarbon contaminants within the made ground on the former garage site.
	The consultant should review this information and update the report to reflect these findings. The risk assessment for the site should also be updated if necessary to account for any potential risks arising from the contamination at the former garage site.

Once these updates have been made, I will be in a position to recommend approval of Condition 1, or part of it, if the overall risk rating for the site remains unchanged.

Kind regards
