Subject: DM/26/0676

Good morning,

West Hoathly Parish Council would like to submit the following additional comments on planning application DM/26/0676- West Hoathly Brickworks

The Parish Council objects to the proposal and would like to see the original Condition 31 retained.

There is no gas in the village. We question the emissions savings claimed over typical gas fired boilers.

Given the adherence of the site layout to comply with the Mid Sussex Design Guide, every dwelling is not aligned to benefit from PV and we acknowledge that some dwellings may only have north facing roof space and we do not want to see such PV installations. Where suitable south, south-east or south-west roof space is available PV should be installed.

We are concerned that Air Source Heat Pumps may not be able to provide hot water.

We request The PES Energy and Sustainability Report Jan 2026 is amended to reflect these objections and Condition 31 is retained consistent with the overall planning philosophy for the development of this otherwise unsustainable site

Kind Regards
