Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Dear Sirs, I will reiterate the positive comments made by other supporters of this application. In addition, I want to add that the applicant seems to have carefully considered compliance and planning guidance for the planned development.

On first glance, the proposed plans look to abide with the requirements set out by the National Policy Planning Framework and the Mid Sussex Local Plan.

The point that the opposers say about a potential impact on traffic and mains drainage is absolutely ludicrous and unfounded. As a local Council please consider this application on the merits of the financial and social benefits this hard working family and local business has made in the community since 2007. It is arguable that to not support a business to expand and become more profitable would cause more harm than good to the local community - we as a country need to support investment in small businesses, not punish them.

With best wishes,
James Givons MRICS FAAV

Kind regards
