Reasons for comment:

Comments: Local objections have been clear since Day One. We are to have this poorly conceived development forced on us then at least some of our objections & issues could be accommodated? We have repeatedly said that the electricity & sewage capacity won't cope and now the few Green components of this scheme are to be withdrawn? Having solar panels would have been a small concession in light of the numerous power cuts we experience in

our village. I hope the new residents/owners of this development are prepared?!

Kind regards
