Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The requested variation appears to be primarily a cost saving exercise. The alleged visual betterment is a poor attempt at justification. The development should seek to maximise the use of "green technologies" and not look instead for the cheapest level of infrastructure necessary to satisfy minimum standards. The original application was approved on the basis of the higher level of provision, and the development should be allowed to proceed only against that approved standard.

Kind regards
