Comments Details

Commenter Type: Neighbour or general public

Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: The developer should not be allowed to change the agreed approach from solar power to connecting to the already stretched electrical supply to the village.
We already have many power outages due to the condition of the electrical supply to the village. Adding 108 houses to the current supply will lead to even more outages.
Has the developer proposed to improve the current electrical

supply with the money they have saved from not going ahead with the solar power approach?

Kind regards
