[REDACTED]
Dear Madam,

I live in and own, with my wife, No 5 (Pastures), The Wilderness, RH16 2JD and have done so for over twenty five years. During all of this period, the South West Corner of No Six has been bounded by a two meter high feather board fence. This fence, following the natural deterioration due to age was in need of replacement. This has been done to a very high standard and quality with the addition of a section of trellis enabling the growth and eventual cascading of greenery to match the rest of the Boundaries in the Wilderness.

Indeed the new fence at No 6, even with the trellis, is still lower than the Beach Hedge to its West or the Yew Hedge opposite at No 1.

I have no objection at all to this replacement Fence. It in no way alters or spoils the view I have enjoyed for all these years as one sweeps right into the Wilderness proper. Indeed, its superior quality enhances the feeling of security and the high standing of properties within the Wilderness.

I repeat, I am fully supportive of the replacment fence.
