To whom it may concern,

Regarding the planning permissions applied for at Foxholes Farm for 200 dwellings.

As a local resident. I don't believe we have the capacity in the local area to handle the increased traffic and demands on local services.

The A272 is already too busy to access at regular times of the day. The road does not have the capacity to deal with the excess traffic of this development.

This will have a negative impact on the area for the resources available to local residents.

I oppose this development.
