MID SUSSEX DISTRICT COUNCIL

DM/25/1926

**4 Northway, Burgess Hill, West Sussex, RH15 0PN, , ,
Make front window smaller and add additional window to create two bed rooms
Mr Callum Watson**

SUMMARY OF REPRESENTATIONS

None received

SUMMARY OF CONSULTEES

None

TOWN/PARISH COUNCIL OBSERVATIONS

Burgess Hill Town Council recommended approval

INTRODUCTION

The application seeks to make the front window smaller and add an additional window to create two bedrooms.

RELEVANT PLANNING HISTORY

BH/017/99 - Two storey rear extension and entrance porch.

SITE AND SURROUNDINGS

4 Northway is a semi-detached dwelling with a brick exterior and a pitched roof. The property has a driveway to the front and there is access via a side gate to the rear garden. The local area is characterised by properties similar in style to the proposal property, many of which have benefitted from various alterations.

The application site lies within the built up area of Burgess Hill as defined in the District and Neighbourhood Plan.

APPLICATION DETAILS

The application seeks to make the front window to the first floor on the front elevation smaller and add an additional window alongside it. Internally alterations are proposed to create two bedrooms, where there is currently one.

LEGAL FRAMEWORK AND LIST OF POLICIES

Planning legislation holds that the determination of a planning application shall be made in accordance with the Development Plan unless material considerations indicate otherwise.

Using this as the starting point the development plan for this part of Mid Sussex consists of the District Plan, Site Allocation Development Plan Document (DPD) and the Burgess Hill Neighbourhood Plan.

National policy (which is contained in the National Planning Policy Framework and National Planning Policy Guidance) does not form part of the development plan, but is an important material consideration.

Mid Sussex District Plan

The District Plan was adopted at Full Council on 28th March 2018.

Relevant policies:

DP26 - Character and Design

Site Allocations DPD

The SADPD was adopted on 29th June 2022. It allocates sufficient housing and employment land to meet identified needs to 2031.

There are no relevant policies.

Burgess Hill Neighbourhood Plan

No relevant policies

Other Material Considerations

Mid Sussex District Plan 2021 - 2039 - Submission Draft (Regulation 19)

The District Council is reviewing and updating the District Plan. Upon adoption, the new District Plan 2021 - 2039 will replace the current District Plan 2014-2031 and its policies will have full weight. In accordance with the NPPF, Local Planning Authorities may give weight to relevant policies of the emerging plan according to the stage of preparation; the extent to which there are unresolved objections to the relevant policies; and the degree of consistency of the relevant policies in the emerging plan to the NPPF. The draft District Plan 2021-2039 (Regulation 19) is currently at Examination and the stage 1 hearings were concluded on the 31st October 2024. There are unresolved objections to some of the Policies in the draft District Plan and as such, only minimal weight can be given to the Plan and this planning application has been assessed against the policies of the adopted District Plan.

Relevant policies:

DPS1 - Climate Change

DPS2 - Sustainable Design and Construction

DPB1 - Character and Design

Mid Sussex Design Guide Supplementary Planning Document (SPD)

The Council has adopted a 'Mid Sussex Design Guide' SPD that aims to help deliver high quality development across the district that responds appropriately to its context and is inclusive and sustainable. The Design Guide was adopted by Council on 4th November 2020 as an SPD for use in the consideration and determination of planning applications. The SPD is a material consideration in the determination of planning applications.

National Planning Policy Framework (NPPF) (December 2024)

The National Planning Policy Framework (NPPF) 2024 is a material consideration.

ASSESSMENT

It is considered that the main issues that need to be considered in the determination of this application are as follows;

- Design and Character
- Impact on neighbouring properties
- Biodiversity Net Gain

Design and Character

Policy DP26 of the Mid Sussex District Plan states:

"All development and surrounding spaces, including alterations and extensions to existing buildings and replacement dwellings, will be well designed and reflect the distinctive character of the towns and villages while being sensitive to the countryside. All applicants will be required to demonstrate that development:

- is of high quality design and layout and includes appropriate landscaping and greenspace; - contributes positively to, and clearly defines, public and private realms and should normally be designed with active building frontages facing streets and public open spaces to animate and provide natural surveillance;*
- creates a sense of place while addressing the character and scale of the surrounding buildings and landscape;*
- protects open spaces, trees and gardens that contribute to the character of the area;*
- protects valued townscapes and the separate identity and character of towns and villages;*
- does not cause significant harm to the amenities of existing nearby residents and future occupants of new dwellings, including taking account of the impact on privacy, outlook, daylight and sunlight, and noise, air and light pollution (see Policy DP27);*
- creates a pedestrian-friendly layout that is safe, well connected, legible and accessible;*
- incorporates well integrated parking that does not dominate the street environment, particularly where high density housing is proposed;*
- positively addresses sustainability considerations in the layout and the building design;*
- take the opportunity to encourage community interaction by creating layouts with a strong neighbourhood focus/centre; larger (300+ unit) schemes will also normally be expected to incorporate a mixed use element;*
- optimises the potential of the site to accommodate development."*

The proposed additional window and reduction in size of the existing window, on the front elevation of the property will not appear incongruous with the streetscene. The materials proposed will match those of the existing dwelling.

Given the design, form and scale of the proposal in relation to the surrounding properties, and that it would be constructed in materials similar to those of the existing dwelling and the surrounding properties, the proposal is considered to comply policy DP26 of the District Plan, and the relevant principles of the Mid Sussex Design Guide SPD.

Impact on Neighbouring Amenities

Policy DP26 in part seeks to ensure that development: *'does not cause significant harm to the amenities of existing nearby residents and future occupants of new dwellings, including taking account of the impact on privacy, outlook, daylight and sunlight, and noise, air and light pollution (see Policy DP29);'*

It is considered that the additional proposed development would not give rise to any overlooking impact to neighbouring properties, nor would there be any significant harm or impact in terms of noise, air or light pollution.

Therefore, in terms of neighbouring amenities, the proposal is deemed to comply with DP26 of the Mid Sussex District Plan.

Biodiversity Net Gain

Biodiversity net gain is required under a statutory framework introduced by Schedule 7A of the Town and Country Planning Act 1990. This is a householder application within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015. As a householder application this development is exempt from the requirement to provide biodiversity net gain.

PLANNING BALANCE AND CONCLUSION

The proposal is appropriate in terms of design and will not negatively impact on the host dwelling nor its immediate setting and will not harm neighbouring amenities. Therefore, the proposal complies with DP26 of the Mid Sussex District Plan and the relevant paragraphs of the NPPF and is considered acceptable.
