Good afternoon,

For the size of Copthorne and proximity to Crawley, I cannot understand why we need another convenience store when we have three already?

The Post Office has recently undergone extensive and expensive refurbishment which will be a big blow to them if it goes ahead.

Where will the patrons of the Public House park? Customers for Post Office also use the car park.

Presumably the current publicans will receive reimbursement (should it go ahead) as they took on the lease that they had the garden and car park.

For the avoidance of doubt I strongly oppose the application as does my husband
