Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Although we do not object in principle to the construction of the proposed new dwelling, we do object to the second-story aspect of this proposal. A second storey will considerably impact the rear aspect of our property and overlook our living space. We would be happy if the property were no higher than the existing pitch of the current outbuilding on the adjacent property.

There have been considerable problems with the drains this past

ten days at 122 High Street, as they have required unblocking by professional drainage companies three times since December 3rd, 2025. This has caused foul water to leak into our cellar adjacent to 122. Another dwelling on the property would not serve to alleviate this problem, and suggests that some investigation into whether the existing drainage system is damaged or needs upgrading to accommodate more volume.

Kind regards
