Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

We wish to apply to vary condition 4 of planning permission DM/16/0327. The existing condition restricts the operating hours of the 3G pitch floodlights to 21.20 pm. The school now seeks to extend these permitted operational hours to 22.20 pm from Monday to Friday, while keeping weekend operating hours completely unchanged.

The 3G pitch is a vital physical asset not only for the school's physical education curriculum but also for the wider local community, local grassroots sports clubs, and youth organisations. During the autumn and winter months, the utility of this premium sports facility is strictly capped by the current lighting restrictions. Extending the floodlight hours by 1 hour will significantly increase community access, promoting physical health, well-being, and structured evening activities for young people in a safe environment.

The school remains acutely aware of its responsibilities to neighbouring residents. Since the original planning permission was granted and implemented, the school has operated the facility without a single recorded complaint regarding light pollution, noise, or anti-social behaviour. Furthermore, the original floodlighting system was completely upgraded to modern, highly directional LED technology this year. Compared to the previous system, these new LED luminaires offer strictly controlled light distribution. Additionally, LEDs offer instant control and can be switched off immediately at the exact cut-off time, eliminating the prolonged cool-down glow associated with older lighting systems while simultaneously reducing energy consumption in line with local sustainability goals.

Has the work or change of use already started?

☒ No

Existing Use

Please describe the current use of the site

During the day, the 3G pitch is used exclusively for school PE lessons and internal curriculum activities, whilst during school holidays it is utilised for various holiday clubs, sports camps, and community youth programmes. In the evenings and at weekends, the facility is hired out to external bookings, local clubs, and community organisations; however, please note that during the playing season, the pitch operates at maximum capacity and is fully booked every evening and all weekend.

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Retrospective planning permission

Please justify the reason why biodiversity net gain does not apply:

Pitch already in situ applying to extend the lighting times

Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

The correct procedure is that you apply to vary condition 4 of planning permission DM/16/0327. To do this click on the links below for the appropriate application form and guidance.

Application form no.39

Checklist

Guidance

The condition was added to the planning permission in the interests of local residents and to protect their amenity. The Officer delegated report does highlight the concerns from the Councils Environmental Health Officer in relation to lighting impact on neighbouring houses. However, if you were to make an application the position can be reassessed. If there have not been any complaints made since the lighting has been installed and the use has been operational, then this would also be worth mentioning.

The policy position hasn't changed and the relevant policies for consideration of this issue, are DP26 and DP29 in the Mid Sussex District Plan. These policies would assess whether the lighting impact would result in significant harm to the residential amenity of neighbouring houses. Of course, like before in the assessment carried out under DM/16/0327, Environmental Health Officers would be reconsulted.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☒ Yes
☐ No

If yes, please provide details of their name, role, and how they are related:

☒ Yes

☐ No

Is any of the land to which the application relates part of an Agricultural Holding?

☐ Yes

☒ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

*** "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.**

**** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.**

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
