| Stance: | Customer objects to the Planning Application |
| Reasons for comment: | |
| Comments: | We strongly object to this proposed development, Firstly this was on the district plan that no access would be given through Woodlands close, this would become a dangerous road with up to over 100 cars / lorries driving through a dead end road. the traffic would be a risk coming out and turning on to Kiln Road |

the width of the road would mean people could be made to cut corners.

Our other concern is that as a small village with issues not being able to get doctors appointments due the the level of residents going up over the years. With a further 300+ homes due to be built within the village off Turners Hill Road.

This development would also impact the local school were already children are unable to walk to the village school and parents are having to travel in vehicles further a field.

The infrastructure is not in place to assist another 200+ residents and there is also a risk of flooding we are also aware of issue with the sewage network and power grid in the village as power cuts often happen. we would also like to draw attention to the wildlife that currently reside in the 3 fields proposed where do they go???

Kind regards
