Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

- ☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Application Refused

1.

The proposed development, by reason of the extensive rendering of the existing dwelling and the introduction of uPVC windows to the principal (front) elevation, would result in an unsympathetic and incongruous form of development that would erode the established character and appearance of the semi-detached pair. The proposal therefore conflicts with Policy DP26 of the Mid Sussex District Plan, Policies E9 and H9 of the Haywards Heath Neighbourhood Plan and the Mid Sussex Design Guide Supplementary Planning Document.

Proposal now replicates the existing windows and retains the existing brick
