

Drainage Information

DM/26/1630 – 24a Pelham Road Lindfield

Information regarding the permeable surface to be used:

It'll be a non woven geo textile membrane over the whole area, Was planning on using marshalls tegula block paving to suit existing path as an entrance strip this will be laid on top of 2-6mm limestone at 50mm deep.

The sub base for the whole area would be 150mm deep type1 mot.

Then 20mm shingle for top dressing 30-50mm deep

All free draining
