Comments Details

Commenter Type: Neighbour or general public

Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: We do not have enough headroom in our local infrastructure as it is without overloading it even more with this unnecessary development. Sure the developers state increased infrastructure but this appears to be only inside of the development and not to

bolster up an already flagging system of power, education and medical amenities.

Consider the chaotic addition of all the new resident commuters cars entering the Turners Hill road during rush hour close to an already dangerous junction.

They say that they will create a natural space for both residents and wildlife alike but will destroy a large area of wildlife habitation in order to achieve it!

Crawley Down has had more than it's fair share of housing estate type of development, please refuse this and all associated applications.

Kind regards
