**TOWN AND COUNTRY PLANNING (GENERAL PERMITTED DEVELOPMENT)
(ENGLAND) ORDER 2015 - SCHEDULE 2, PART 3, CLASS Q**

PERMISSION

REFERENCE: DM/22/0797

**DESCRIPTION: NOTIFICATION FOR PRIOR APPROVAL OF A CHANGE OF USE
FROM AGRICULTURAL BARN TO DETACHED HOUSE**

**LOCATION: POLLARDS FARM, DITCHLING ROAD, DITCHLING COMMON,
DITCHLING**

DECISION DATE: 7 JUN 2022

CASE OFFICER: JOSEPH SWIFT - JOSEPH.SWIFT@MIDSUSSEX.GOV.UK

The Council hereby confirm that their **prior approval is given** for the above development to be carried out in accordance with the submitted application and plans and subject to compliance with the following conditions:-

1. The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

2. **Approved Plans**

The development hereby permitted shall be carried out in accordance with the plans listed below under the heading "Plans Referred to in Consideration of this Application".

Reason: For the avoidance of doubt and in the interest of proper planning.

3. No development shall be carried out unless and until a schedule of materials and finishes to be used for external walls, roof windows and doors of the proposed barn conversion have been submitted to and approved by the Local Planning Authority.

The works shall be carried out in accordance with the approved details unless otherwise agreed with the Local Planning Authority.

Reason: To protect the appearance of the building and the area.

4. Prior to the commencement of development approved by this planning permission (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), the following components of a scheme to deal with the risks associated with contamination of the site, including the identification and removal of asbestos containing materials, shall each be submitted to and approved, in writing, by the local planning authority:

a) A preliminary risk assessment which has identified:

- all previous uses
- potential contaminants associated with those uses
- a conceptual model of the site indicating sources, pathways and receptors
- potentially unacceptable risks arising from contamination at the site

and unless otherwise agreed in writing by the Local Planning Authority,

b) A site investigation scheme, based on (a) to provide information for a detailed assessment of the risk to all receptors that may be affected, including those off site;

and, unless otherwise agreed in writing by the Local Planning Authority,

c) Based on the site investigation results and the detailed risk assessment (b) an options appraisal and remediation strategy giving full details of the remediation measures required and how they are to be undertaken.

Reason: To ensure that the risks from land contamination to the future users of the land are minimised, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors.

5. The development hereby permitted shall not be occupied/brought into use until there has been submitted to and approved in writing by the Local Planning Authority a verification plan by a competent person showing that the remediation scheme required and approved has been implemented fully and in accordance with the approved details (unless varied with the written agreement of the Local Planning Authority in advance of implementation). Any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action shall be identified within the report, and thereafter maintained.

Reason: To ensure that the risks from land contamination to the future users of the land are minimised, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors.

6. If during construction, contamination not previously identified is found to be present at the site then no further development (unless otherwise agreed in writing by the LPA), shall be carried out until a method statement identifying, assessing the risk and proposing remediation measures, together with a programme, shall be submitted to and approved in writing by the LPA. The remediation measures shall be carried out as approved and in accordance with the approved programme. If no unexpected contamination is encountered during development works, on completion of works and prior to occupation a letter confirming this should be submitted to the LPA. If

unexpected contamination is encountered during development works, on completion of works and prior to occupation, the agreed information, results of investigation and details of any remediation undertaken will be produced to the satisfaction of and approved in writing by the Local Planning Authority.

Reason: To ensure that the risks from land contamination to the future users of the land are minimised, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors.

7. No part of the development shall be first occupied until the electric vehicle charging space(s) have been provided in accordance with plans and details to be submitted to and approved by the Local Planning Authority.

Reason: To provide sustainable travel options in accordance with current sustainable transport policies.

8. No part of the development shall be first occupied until covered and secure cycle parking spaces have been provided in accordance with plans and details to be submitted to and approved by the Local Planning Authority.

Reason: To provide alternative travel options to the use of the car in accordance with current sustainable transport policies

9. No part of the development shall be first occupied until the car parking spaces have been constructed in accordance with plans and details to be submitted to and approved in writing by the Local Planning Authority. These spaces shall thereafter be retained at all times for their designated purpose.

Reason: To provide car-parking space for the use.

10. The proposal shall be implemented in accordance with conclusions and recommendations as set out within the submitted Flood Risk Assessment dated May 2022.

Reason: To ensure that the proposal is satisfactorily drained and protected from flooding.

Your attention is drawn to the caveats set out below:

INFORMATIVES

1. Your attention is drawn to the requirements of the Environmental Protection Act 1990 with regard to your duty of care not to cause the neighbours of the site a nuisance.

Accordingly, you are requested that:

- Hours of construction/demolition on site are restricted only to: Mondays to Fridays 0800 - 1800 hrs; Saturdays 0900 - 1300 hrs; No construction/demolition work on Sundays or Public Holidays.
- Measures shall be implemented to prevent dust generated on site from crossing the site boundary during the demolition/construction phase of the development.

- No burning of materials shall take place on site at any time.

If you require any further information on these issues, please contact Environmental Protection on 01444 477292.

2. The proposed development will require formal address allocation. You are advised to contact the Council's Street Naming and Numbering Officer before work starts on site. Details of fees and developers advice can be found at www.midsussex.gov.uk/streetnaming or by phone on 01444 477175.
3. To prevent future enforcement action under Environmental Health legislation the developer must ensure that all bedrooms in the proposed development meet the required Environmental Health legislation requirements.

Plans Referred to in Consideration of the Application

The following plans and documents were considered when making the above decision:

Plan Type	Reference	Version	Submitted Date
Existing Floor and Elevations Plan	16019-P-100		09.03.2022
Proposed Floor and Elevations Plan	16019-P-110		09.03.2022
Location and Block Plan	16019-P-001		09.03.2022
