Comments Details

I note the report entitled "Noise Management Plan-Woodside Grange" by BearHaus that was submitted in support of the discharge of condition 14 and my comments are made with reference to that report.

Comments: Whilst we would normally expect a report from a qualified acoustician, the measures that have been specified by BearHaus to mitigate internal noise levels are inline with the measures noted in the Noise Impact Assessment prepared by Environmental Assessment Services Ltd. Accordingly, I recommend that condition 14 of DM/23/2688 can be discharged.

Kind regards
