T1 - mature Oak : Reduce back lower canopy 2m. T2 and T3 Mature Oaks. Remove epicormic
growth on main stems to branch break.
Mrs Tricia Wright**

Permission is sought for the works as described.

The trees are mature specimens, located in the rear garden. The area is defined by mature, protected trees, forming a backdrop to the residential development.

The trees have previously been reduced and works relate to secondary growth only. Thinning works will address regrowth from the previous reduction and increase light to the rear of the property.

Permission is recommended.
