Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Please accept this as my formal objection to the building of any volume of houses on the area of land currently earmarked for 42 houses. The Government, alongside Mid-Sussex Council, appear adamant on completely destroying the green areas of East Grinstead and the surrounding area. This latest development proposal is just yet another nail in the coffin of what once was a leafy market town. Planning application DM/26/0073 will not only create an eye-sore for any residents in its vicinity, but the

additional traffic and proposed location of the access road will make it even more awkward to navigate West Hoathly Road. In addition to this, there is no plan to improve the local infrastructure which is already at breaking point (can't get a doctor appt, no dentists, schools are full, traffic is getting worse) and the most recent and publicised issue is that there is not even sufficient water for the current population. Continually adding to the problem really is not helping and whoever thinks the illogical decision to do so is a good decision, really needs to be investigated. The building of and then the final additional 42 houses will significantly increase pollution and noise levels in the area; which is currently one of the quietest and loveliest parts of East Grinstead to live in. You're also going to impact wildlife and nature even more than it has been already. There really is no need for all of these houses. Nobody local can afford them and you're just ruining our lovely town. Many people moved here for a reason; and it wasn't to have your view or quiet way of life destroyed by politicians hell-bent on ruining your way of life.

Kind regards
