Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I saw an advertisement on the side of a bus in Brighton by southern water, stating that if we don't change the way we use water, we won't be able to supply ourselves by 2030, that's 3 and a half years away If we add more homes using the same water supply, we will not be able to sustain them, or anyone else, we cannot have more homes built here

Not to mention, this is one of the few public green spaces left surrounding Haywards heath, if we don't stop now all green spaces will be gone

The money isn't worth it, stressing out water supplies, doctors, schools, super markets and roads, and it definitely is not worth losing our natural spaces, and destroying habitats for already declining wildlife, please do not accept any building proposals

Kind regards
