Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to this development as it would remove an open green space that is close to this end of town and within walking distance from my house - a place my husband and I stroll regularly as the land is very accessible and is treated as such by the community. It would also impact the fauna contained within it. The area has clear historical interest and character that should be maintained. This, and other new developments in the area, should be refused due to the inability of local infrastructure to cope with current demands, let alone extra ones; in particular, water supplies have

been regularly decimated and an increased burden spells disaster.

Kind regards
