Following dialogue between the owner, Mr. Philip Pain and Mr. Hamish Evans, the correspondence, email: 28.03.2025, confirmed the following:

Dear Philip,
Thank you for the below email and apologies for the delayed response. I have spoken to the Conservation Officer and they have advised that they wouldn't consider composite cladding to be appropriate in this location and that if cladding is to be acceptable a more traditional material would need to be proposed. If you wanted to provide us with an amended elevations plan with more traditional materials we can take a look and advise whether it would be acceptable or not.
Thank you.
Kind regards,
Hamish Evans

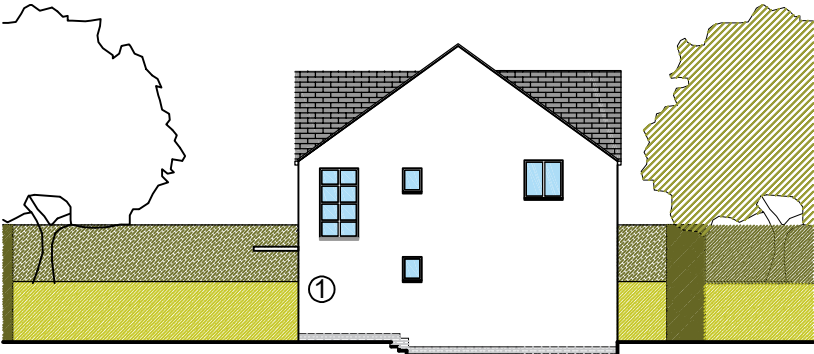

Following reassessing the external finish, an off-white render seemed appropriate. This stays in keeping with the neighbours along Ockley Lane.
