Hi Caroline,

Sorry it's me again. I just wanted to address one last thing before tomorrow's meeting.

Regarding the comment made by Rosary court, stating that we removed healthy trees which have directly impacted local birdlife.

I have attached a photo to show the size of these trees, as you will see, the conifers were clearly oversized for their location, situated too closely to the house, blocking out any kind of light and were causing potential concern about the roots affecting the foundations of the house.

In terms of bird life, conifers are so enormous, drawing all nutrients from the soil, reducing light and suppressing ground flora which would in turn impact on plant and wildlife. Now that these have been removed, my mum has been able to plant a wide variety of plants and flowers, therefore increasing the diversity of wildlife.

I'm happy for this email to be made public, as my previous email was.

I'm just trying to provide as much information as possible ahead of the consultation tomorrow.

I hope this helps.

Many thanks.
