Dear Laura and Chris

Thank you for the amended plans and supporting documents for the above application. I have now updated the planning file and arranged the readvertisement of the application.

The new Press Expiry date for the application is 25.03.2026.

Unfortunately, this post dates the agreed Extension of time date of 13.03.2026. **I am therefore writing to request your agreement to a new EOT for the Decision Target Date to 27.03.2026.**

Please can you confirm your agreement to this new date by return email?

Thank you.

Regards

Anna

Dear Chris

Thank you for your email.

I can confirm that the application has been registered under reference DM/26/0406. I note that it has been allocated to my colleague Tracie Axford, and I have copied her into this email for your/her information.

Tracie can be contact by email Tracie.Axford@midsussex.gov.uk, or by direct tel 01444 477325.

Whilst writing thanks you for the agreed Extension of time for DM/25/3210 relating to Nos 11-14 Hett Close to 13.03.2026, which I received from Laura Hanton, see attached, which I have noted. Please can I check on the progress of the amended plans for that application?

I look forward to hearing from you.

Dear Chris

Thank you for your email. I look forward to the receipt of the revised plans and supporting information for application DM/25/3210 for 11-14 Hett Close. Upon receipt I will arrange the readvertisement of the application, with an amended description, and request your agreement to an Extension of time date.

With regards to your question regarding the replacement of windows on other neighbouring houses at Nos 1,2,4,5,6,7,8,9 I suggest that you submit a preapplication enquiry to seek advice. However, if they are on the same original development site I would expect that the use of UPVC windows will be similarly resisted.

I look forward to hearing from you.

You don't often get email from cbelton@archwaybc.co.uk. [Learn why this is important](#)

Hi Anna

Hope you're well. We are just in the process of amending the drawings for 1 to 14 Hett close.

My client is also looking at replacing the windows to the modern houses at number 1,2,4,5,6,7,8,9.

Given that these are more modern properties with uPVC facias and composite doors, we assume double glazed Heritage Style uPVC windows to match existing style (similar to the attached) would be acceptable?

I look forward hearing from you.

Subject: Conservation Officer and Planning Officer comments for DM/25/3210 - 11-14 Hett Close, Ardingly

FAO: Louise Brown and Chris Belton

Dear Louise and Chris

I write further to my attached email from Monday this week, which referred to your request for the addition of replacement rooflights into the application. I should have mentioned that in Conservation Areas a Conservation style roof light design is preferable.

Please see below the comments from the Council's Conservation Officer, Emily Wade, on the current application, which I received yesterday.

I note that Emily has advised that the submitted Design and Access Statement does not correctly identify that the site falls within the Ardingly Conservation Area, see paragraph 2.2. Please can this be corrected? The site is also within the High Weald AONB/National Landscape.

I note that Emily has raised an objection to the proposed use of UPVC windows and requests that the replacement windows and doors are instead double glazed and timber framed, of an appropriate design, with the prominent trickle vents omitted.

Following my visit to the site I have considered the submitted details for the application, ie. the Proposed Window Schedule, Matrix 70 Casements Sections and Specification sheet and Composite Door design sheet (which has no completed tick boxes to identify the proposed design or colour preference/s). I have also reviewed the planning history for the original development of the flats and houses on the site (under planning reference AR/037/94) and I note that the building materials were carefully controlled by planning condition 10, see attached Decision Notice.

I agree with Emily's assessment. I do not consider that UPVC is an appropriate material in Hett Close or in the Ardingly Conservation Area. I consider that the relevant planning policies for the area do not support the replacement of the existing timber framed windows with UPVC windows, and the proposed door design/colour/detail is also unclear from the submissions. UPVC and composite doors are not of a traditional

material, and are unsuitable for a heritage setting. In making my assessment I am mindful of the open public views of the property, with others in Hett Close and in the street scene, and within the designated Conservation Area.

Planning policies that are relevant in the determination of your application are DP26 - Character and design and DP35 - Conservation Areas in the MSDC District Plan and Policy ARD 5 – Housing Design and Policy ARD 9 – Heritage Assets in the Ardingly Neighbourhood Plan. The wording of these policies can be found in the Planning Policy section on the MSDC website, see [Planning Policy - Mid Sussex District Council](#)

Also relevant is the advice contained in the MSDC Design Guide, see [Supplementary and Other Planning Documents - Mid Sussex District Council](#)

I have to consider the policy guidance in these documents, and the advice provided by Emily Wade in my assessment of the proposal.

I cannot support the use of UPVC windows, and I would like more detailed information of the proposed composite door, but preferably timber door details to be submitted. I hope that you can encourage your clients to reconsider their stance regarding both the proposed window and door materials and design before I make my recommendation on the application. As the application stands I intend to recommend that it is Refused, as I am unable to support the proposed inappropriate UPVC windows and have inadequate door details.

I will need to clearly justify my reasons for this decision in my recommendation report, which will require a detailed assessment of all elements of the submitted proposal.

I understand that your clients will want to think about my comments, and ask that you reply to me by the end of next week to explain how they would like to take this matter forward.

If your clients would like to amend the proposal, please advise me and submit alternative plans/application form and details to this email.

I await your reply.

Regards

Anna Tidey

From: Emily Wade <Emily.Wade@midsussex.gov.uk>

Sent: 20 January 2026 16:25

To: Anna Tidey <anna.tidey@midsussex.gov.uk>

Subject: 11-14 Hett Close, Ardingly DM/25/3210

Hi Anna

Comments on the above planning application.

Firstly, I note that the submitted DAS comments that the site is not within a Conservation Area, which is incorrect and should be amended.

The application site is a small, modern apartment block located within the Ardingly Conservation Area. The block is part of a larger development also including ten houses which was granted planning permission in 1999, and which occupies part of the former grounds of Hapstead House, a large probably mid-19th century building, now converted to flats, which is located just to the south. Hapstead House is one of the oldest and certainly the largest buildings in this eastern part of the Conservation Area, and has some landmark value, being a focal point in views from the High Street along the original entrance driveway (now Hett Close). A small number of other historic buildings which were part of the Hapstead House estate also survive- the Lodge House adjacent to the High Street, and the former coach house to the north of the main building, now a

residential conversion. These historic buildings have group value, and make individually and collectively a strong positive contribution to the character and appearance of the Conservation Area.

The late 20th century development of which 11-14 Hett Close is in close proximity to the historic house and coach house, and will have resulted in loss of part the original gardens. It is however relatively sympathetic in design and materials to the original buildings, which to an extent mitigates the harm to the setting of the historic buildings and the character and appearance of the Conservation Area arising from these factors. For example, timber has been used for the windows and doors to the building.

The current proposal is for the replacement of the existing timber windows with uPVC framed casements and the timber doors with composite units. In my opinion, the proposal is unacceptable in principle, as the use of these materials is not sympathetic to the Conservation Area or to the context of the adjacent historic buildings at Hapstead House and the former coach house. It would detract from the quality and consistency of the development at Hett Close, and from the contribution which this makes to the character and appearance of the Conservation Area. I would recommend that the proposal is amended to indicate replacement double glazed timber framed windows and doors of an appropriate design. In regards of the windows, any amended proposal should also omit the prominent trickle vents shown on the submitted proposed drawings.

As it stands, I would consider the proposal harmful to the character and appearance of the Ardingly Conservation Area, contrary to the requirements of District Plan Policy DP35. In terms of the NPPF, I would consider the harm caused to be less than substantial, at the low-mid point of that scale, such that paragraph 215 will apply.

Thanks,

Emily

Please note that this advice is given at Officer level only and is without prejudice to the formal decision of the District Council.
