[REDACTED]

Dear Joseph Swift,

I am writing to complain about the proposal to erect 42 new homes on the land off West Hoathly Road, East Grinstead.

This would be on the border of the Town with an area of outstanding natural beauty and would be an infringement of the Neighbourhood Plan. At present there are sheep grazing but there will also be an assortment of wild life in this beautiful spot.

Apart from this there are practical aspects -

1. Traffic increase - the road, at this point, is well-used and any increase in traffic will create [REDACTED] with much congestion. I also know that application has been made, several times, for approval of a road to link Harwoods Lane with this area and, again, the volume of traffic would present a further hazard.
2. Infrastructure - has enough thought been given to the problems which this overload will create.

This is a beautiful [REDACTED] and it is totally wrong that this development should go ahead.

Yours faithfully,

[REDACTED]
