Comments:

Since the removal of the pond at 5 Shelley Wood Burgess Hill RH15 9XL our property is suffering from continues water logging in our back garden {Even if it hasn't rained} due to what I have been told is an underground spring.

This waterlogging is killing our lawn and one of my major concerns is the damage it may be causing underground. as excess water may be reaching the footings of our property and could cause subsidence . My understanding is that this pond and underground spring were listed with a protection order.

The listed pond was removed very quickly and filled in immediately

without consent from MSDC or any engagement with council or neighbours.

I wish for this matter to be investigated immediately and thoroughly and for any surveys to be carried out at the expense of the owners' residents Sakkara 5 Shelley Wood Burgess Hill West Sussex RH15 9XL

Thank you in advance. I sincerely hope that our wonderful MSDC will oversee the reinstallation of this once beautiful listed Pond and all of the incredible wild life that once occupied this stunning natural habitat can return home. Kind Regards

Kind regards
