1 Orchard Road, Burgess Hill

Dear Stefan,

With reference to the above
our telephone conversation today, I am
putting in writing my concerns regarding
the height proposed of the proposed garage
the dimensions, we have a shared drive
that runs behind 1, 3 & 5 Orchard Road & access
is quite tight as it is. Also the height of
7 mtrs extension & again dimensions including
height of brick wall replacing the fence which
runs along the boundary of the shared drive.
This would block out the light &
views & would not be in keeping with the
neighbourhood.

These plans are very big and we are
aware the new neighbour is a builder, however
we would like the council to take it

consideration the impact this would have
on his neighbours, this would not be harmonious
with existing landscape causing conflict or
discord.

Yours faithfully
