Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: It flies in the face of government commitments to triple domestic solar rooftop installations by 2030 in its Warm Homes Plan and the Future Homes Standard which comes into force from 24 March 2027 where it will be mandatory for all new build homes to install the equivalent of 40% of the ground floor area in solar arrays. This will not therefore meet these targets.

Kind regards
