Subject: Planning Application

[REDACTED]
No:DM/26/0793 Hillbury Cottage, Horsham Road, Handcross, Hayward's Heath

Mr P Davies,

I oppose this application for the following reasons:

There are four other bungalows either alongside or opposite the property seeking this application each property suffers daily with vehicles parking on the pavement blocking elderly pedestrians from walking safely moreover forcing young mothers , with prams to pass using the road thereby endangering themselves and their children.

The granting of this application will force more vehicles to seek parking in a smaller area and increase the danger to residents and pedestrians.

[REDACTED]

I am sure all of us would wish an extended drop kerb, enabling guaranteed private parking on a public road. Parking in front of this property is already daily manipulated by the owners and the granting of this application will be the ultimate manipulation.

If the Council or Highways sincerely have the safety of residents and pedestrians as a true priority then double yellow lines should be drawn from the 'Red Lion' (public house) on both sides of the road, to the bridge.

If this application is approved I and I believe other residents will apply for an extended drop kerb.

yours sincerely,

[REDACTED]
