Subject: DM/26/0082 - Balcombe Cricket Club, Cricket Pavillion, Haywards Heath Road, Balcombe

Hi Andy,

I have reviewed the Tree Report for this proposal.

I note the loss of 3 no. o category U trees, which are not a constraint to development.

I noticed that the proposal would impact on Ancient Woodland and is proposed to be installed in the buffer zone of the Ancient Woodland. However, that would be a matter for Ecology.

I find that a more detailed Arboricultural Method Statement would be required, if the proposal is not being relocated as suggested in the Arboricultural Report. This should have particular interest in the protection of T8, the category A oak.

Kind regards

Emma
