Subject: DM/25/1175

Hi Joe,

Firstly, 22 Cat A trees were removed to facilitate the development. Many of these were oaks and I would expect more oaks within the tree palette than proposed. I would favour less Liquidamaber, Platanus and Acer fremmanii and more oaks and other, larger trees endemic to the area.

Whilst I am happy to accept some ornamentals, oaks and other natives should predominate.

The shrub and hedge mixes are satisfactory and the AIA is considered acceptable.

Thanks,

Irene
