Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	While I welcome the removal of the gardens immediately along my property boundary, I remain concerned about the impact of the remaining gardens and the development more broadly on the loss

of privacy and light to my property. I continue to have concerns about loss of privacy into my garden as a direct result of the proposed development.

Section 106 contributions

I would also like to raise concern regarding the Financial Viability Assessment's position that the development cannot support the Section 106 contributions being sought. In particular, the relocation of the bus stop/provision of a bus shelter, as recommended by the Parish Council, would have a direct impact on my property, and I do not consider that viability should be used as a basis to remove this mitigation.

For the reasons above, and those set out in my previous comments, I object to this application in its current form.

Kind regards
