Thank you for requesting advice on this application from Place Services' ecological advice service. This service provides advice to planning officers to inform Mid Sussex District Council planning decisions with regard to potential ecological impacts from development.

Application: DM/25/1050
Location: Land Adj. To Barn Cottage Cuckfield Road Ansty Haywards Heath
Proposal: Proposal to erect a single four-bedroom house in land adjoining Barn Cottage (Additional BNG and Ground Level Tree Assessment Received 18.12.2025).

Thank you for re-consulting Place Services on the above application.

Summary

We have reviewed the further Small Sites Metric – Calculation Tool Rev 6 (revised March 2026) and we are still not satisfied that appropriate information with regard to mandatory biodiversity net gains has been supplied for the application prior to determination. The reason for this is outlined below:

Mandatory Biodiversity Net Gains:

Applications are required to deliver a mandatory 10% measurable biodiversity net gain, unless exempt under [paragraph 17 of Schedule 7A of the Town and Country Planning Act 1990](#) and the [Biodiversity Gain Requirements \(Exemptions\) Regulations 2024](#).

Biodiversity net gains is a statutory requirement set out under [Schedule 7A \(Biodiversity Gain in England\) of the Town and Country Planning Act 1990](#). This legislation was inserted into the 1990 Act by Schedule 14 of the Environment Act 2021, and was amended by the Levelling Up and Regeneration Act 2023. The Biodiversity Gain (Town and Country Planning) (Consequential Amendments) Regulations 2024 made consequential amendments to other parts of the 1990 Act.

The [Biodiversity Net Gain Planning Practice Guidance \(PPG\)](#) sets out how mandatory biodiversity net gains should be applied through the planning process and Paragraph: 011 Reference ID: 74-011-20240214 sets out what information should be submitted as part of a planning application if the statutory biodiversity gain condition applies.

We have reviewed the Biodiversity Gain Plan (Places Architects Ltd., February 2026), Baseline Map and Post-development Map (submitted February 2026) and the further Small Sites Metric – Calculation Tool Rev 6 (revised March 2026) and are still not satisfied that appropriate information has been provided prior to determination. This is because of the reason set out below:

- The submitted Small Sites Metric – Calculation Tool Rev 6 (revised March 2026) still does not include the on-site individual trees. Therefore, this still needs to be undertaken to ensure that an appropriate BNG pre-development baseline has been provided at application stage. There is a separate ‘individual trees’ section within the ‘1a Baseline habitats’ table, which should reflect the tree area calculator tool.

Where mandatory biodiversity net gains apply, the planning authority will be required to secure a biodiversity gain condition as a pre-commencement requirement. The biodiversity gain condition has its own separate statutory basis, as a planning condition under [paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990](#) and should be included as an informative within the decision notice. The biodiversity gain condition should secure the provision of a Biodiversity Gain Plan prior to commencement, which includes the following:

- a) A Biodiversity Gain Plan form (Ideally using the Government’s template: <https://www.gov.uk/government/publications/biodiversity-gain-plan>)
- b) The completed metric calculation tool showing the calculations of the pre-development and post-intervention biodiversity values.
- c) Pre and post development habitat plans.
- d) Legal agreement(s)
- e) Biodiversity Gain Site Register reference numbers (if using off-site units).

- f) Proof of purchase (if buying statutory biodiversity credits at a last resort).

In addition, a [Habitat Management and Monitoring Plan](#) (HMMP) should be secured for all [significant on-site enhancements](#). However, we understand that Mid Sussex District Council's position is that significant on-site enhancements do not apply for minor development. Therefore, a HMMP or legal agreement is not expected for this application.

We look forward to working with the LPA and the applicant to receive the additional information required to support a lawful decision and overcome our holding objection.

Please contact us if you have any queries in relation to this advice.

Yours sincerely,

Hamish Jackson ACIEEM BSc (Hons)
Senior Ecological Consultant
 Place Services at Essex County Council

Place Services provide ecological advice on behalf of Mid Sussex District Council.

Please note:

This letter is advisory and should only be considered as the opinion formed by specialist staff in relation to this particular matter.

We are unable to respond directly to applicants/agents or other interested parties. Any additional information, queries or comments on this advice that the applicant/agent or other interested parties may have, must be directed to the Planning Officer at the relevant LPA, who will seek further advice from us where appropriate.
