Subject: DM/26/1689 Discharge of Condition 24 Relating to External Lighting at Land South of St Stephens

[REDACTED]

Dear Ms Williams,

We are objecting to the proposed external lighting for this development.

Horsted Keynes has no existing street lighting. This feature is part of the village's rural character and is one residents prize and wish to retain. Lighting on this development would be out of character and a blot on our night landscape. Any requests for lighting have always been turned down and to grant this would create a precedent for future developments.

The parish lies wholly within the High Weald AONB and any lighting would be contrary to the landscape and habitat of the AONB.

There is no demonstrable reason for this illumination.

Yours faithfully
