Good evening,

I am writing to submit my objection, as the MSDC online planning portal is once again unserviceable. This is an absolute disgrace as this is where residents should legally be able to log objections.

I therefore require confirmation of this e mail that my objection has been manually logged against the case file and that my right to comment during the consultation period has not been prejudiced.

The proposal for 6 dwellings on the site, that is currently used for grazing sheep, is yet another loss of high quality agricultural land in the area. The houses will have an urbanising effect that will encroach into open countryside.

Surely this proposal is unsustainable, given the fact that there is no public transportation in the vicinity, thus residents would be relying solely on private vehicles.

The above objections are just the tip of the iceberg. Inadequate Infrastructure, facilities, utilities and added stress on our already heavily congested roads, in this medieval village, are surely points that should also be considered.

Yours sincerely,

[REDACTED]
