Please identify the tree(s) and provide a full and clear specification of the works you want to carry out	It is a Cypress tree around 10m tall on the boundary of our property and the neighbouring property Jordans. It is also on the edge of the Keymer conservation area boundary. The tree has become overgrown with wisteria and ivy and is now considerably taller than the neighbouring property. It is relatively fast growing and is very close (less than 3 metres) to our neighbours property. We propose to reduce in height by approximately three metres, trim crown removing regrowth and remove the wisteria and ivy.
