Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object this application due to numerous reasons. - Village is at capacity. The village already accommodates new build copthorne footprint and traffic. The village is also currently accommodating copthorne hotel refugees. - Travel disruption through village. Delivery entry and exit routes will cause a lot of disruption through an area of the village which attracts traffic already.

- 3 local shops already exist. This will hugely threaten these local shops existence and ultimately damages the social values of the village.

- Preserve the community and identity of the village. We are in danger of losing any sense of community in the village.

This planning application is not in the best interests of the village, and will upset / anger the wider community.

It is clear this is being viewed as profitable opportunity, as well as supporting government driven new builds objectives.

Instead money should be invested in the pub, and seek to support the local community. This would be the socially responsible thing to do.

Kind regards
