

Qty	Species / Cultivar	Common Name	Supply Size	Form
10	Amelanchier lamarckii	Lamarck Serviceberry	2.5-3.0m	Multistem
8	Arbutus unedo	Compact Strawberry B	2.5-3.0m	Multistem
12	Alnus glutinosa	European Alder	14-16cm	Standard
8	Quercus robur	English Oak	14-16cm	Standard
9	Pinus sylvestris	Scotch Pine	14-16cm	Standard
1	Sequoiadendron giganteum	Giant Sequoia	14-16cm	Standard
16	Betula pendula	European White Birch	2.5-3.0m	Multistem
5	Sorbus aucuparia	European Mountain As	14-16cm	Standard
7	Crataegus monogyna	Crataegus monogyna	14-16cm	Standard
8	Tilia europaea Pallida	Broad Leafed Lime	14-16cm	Standard
4	Acer campestre	Field Maple	14-16cm	Standard
6	Fagus sylvatica	European Beech	14-16cm	Standard

The branches form a rounded dense conical crown towards the top with individual branches sweeping downwards with upturned ends. It has distinctive spongy reddish-brown bark with small scale-like blue-green, awl shaped leaves 6-12mm long arranged spirally round the shoots.

A large deciduous tree developing a magnificent broad crown, the leaves with shallow, rounded lobes, turning reddish brown in autumn. Inconspicuous yellow-green catkins followed by characteristic acorns.

Fagus sylvatica also known as the Common Beech, is a native tree that has yellow to green leaves in the spring turning a rich russet brown in the Autumn.

P. sylvestris is a large evergreen tree to 25m, with the upper trunk and branches orange-brown, developing a picturesque, irregular outline with maturity. Twisted grey-green needles are borne in pairs. Cones 5cm in length

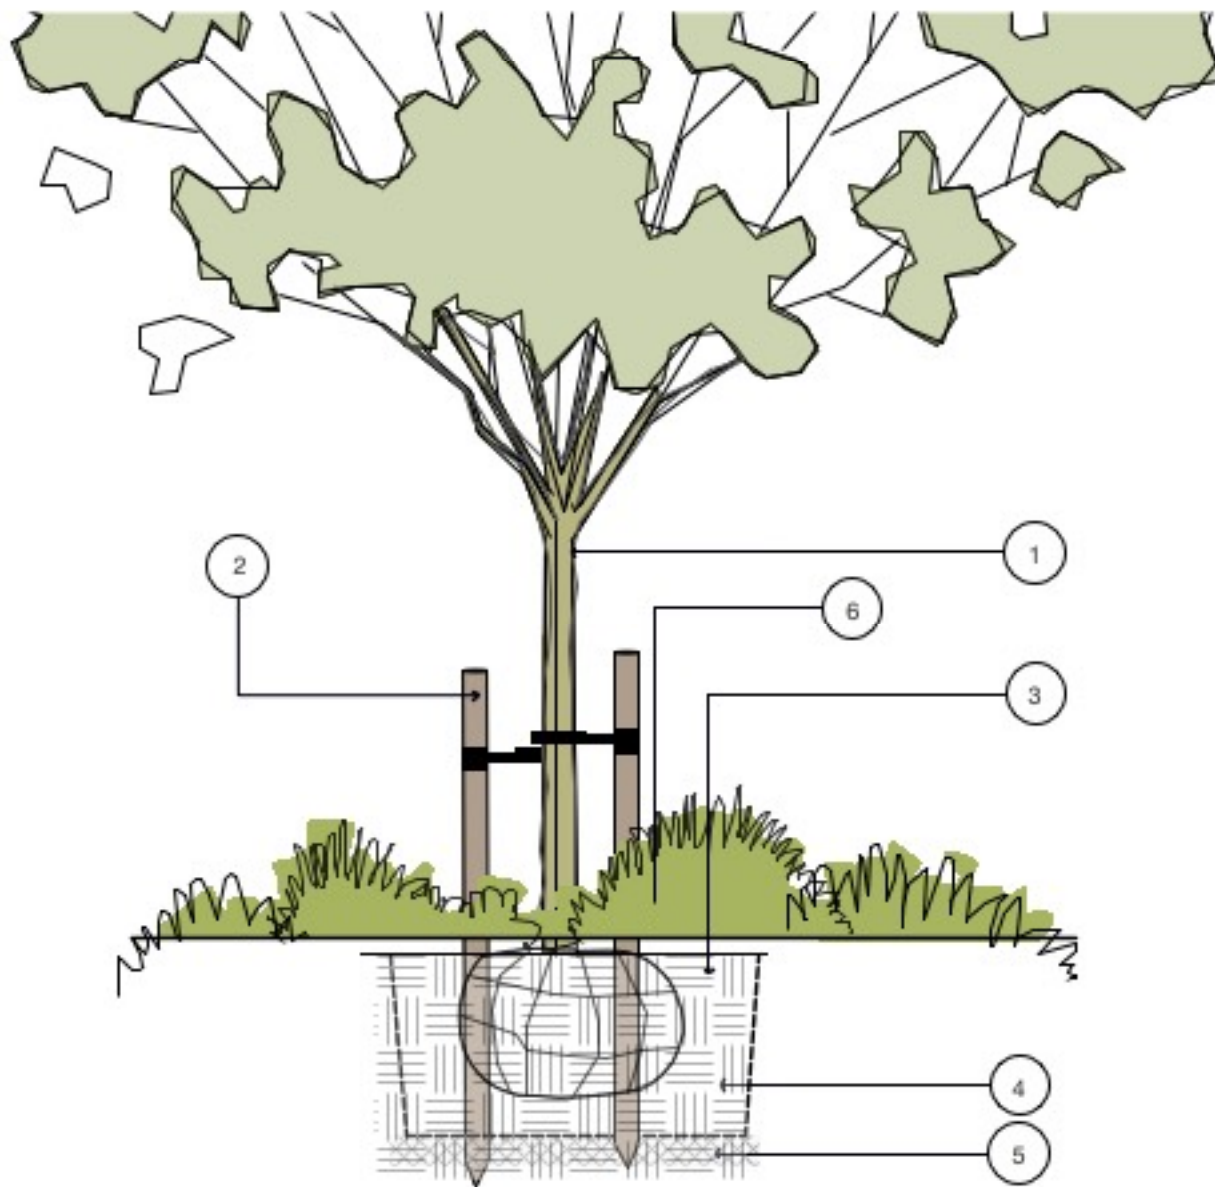

A photograph showing a row of young trees, possibly birches, planted in white plastic pots. The trees have thin, light-colored trunks and green foliage. They are arranged in a neat row, and the background shows a bright, possibly overcast sky.

Betula pendula, or the Common Silver Birch tree, is native to the UK and has white bark which develops diamond shaped cracks towards the base as it matures.

A photograph showing a long, straight row of young trees, likely poplars, planted in black plastic pots in a nursery. The trees are supported by wooden stakes. The ground is covered with straw or mulch, and the sky is clear and blue.

A. campestre is a medium-sized deciduous tree with a compact bushy crown. Leaves with 5 blunt lobes, turning yellow or red in the autumn. Flowers small, green, forming typical winged maple fruits

Arbutus unedo multi-stem is an evergreen, ornamental, multi-stem, capriciously growing shrub or small tree with glossy, leathery, mid-green foliage. Clusters of fragrant, bell-shaped, white flowers bloom from autumn to mid-winter. Round, yellow fruits appear in winter and slowly become ripe in the next 12 months, gradually turning red.

- 1 **ROOTBALL TIES:** GROWN IN OPEN SOIL AND DELIVERED IN HESSIAN / WIRE BIODEGRADABLE WRAPPING. WRAPPING TO BE LEFT INTACT.
TREE STOCK TO BS3386-4:2007.
- 2 **TIMBER STAKES:** 2x SECURED TO TRUNK WITH RUBBER TIES
- 3 **TREE PIT:** BASE AND SIDES TO BE LOOSENED TO ALLOW ROOT PENETRATION DUG IMMEDIATELY BEFORE PLANTING.
- 4 **BACKFILL:** TOPSOIL / WELL ROOTED MANURE BLENDED WITH EXISTING SOIL 50:50 RATIO
- 5 **COURSE GRAYEL:** 250MM TO BASE OF TREE PIT
- 6 **MULCH:** 500MM DIA CLEAR SOIL WITH BARK MULCH.

A. glutinosa is a deciduous tree to 25m, broadly conical in habit when young, with grey-purple buds and young catkins conspicuous in winter, and rounded bright green leaves

Amelanchier are small deciduous trees or shrubs with showy white flowers in early spring, red to purple fruits and often good autumn colour

A large, deciduous tree. The heart shaped leaves are green turning yellow in autumn. Fragrant flowers in summer are cream but scarcely visible. In the winter, the young twigs are red bronze.

'Joseph Rock' is an upright tree with pinnate leaves which turn orange, red and purple in autumn, contrasting with the butter yellow berries.

Ilex aquifolium Nellie Stevens, known as Nellie Stevens Holly, grows well as a bush or a single stemmed tree.

A photograph showing a long row of young trees, likely poplars, planted in white plastic pots in a nursery. The trees are supported by stakes and are arranged in a neat line. The background shows a clear blue sky and some distant structures.

The aspen is a large deciduous tree with rounded leaves, bronze when young, which tremble in a light breeze and turn yellow in autumn. Male and female catkins appear on separate trees.
