Comments Details

Comments:	Contaminated land matters for this site have already been secured and are being addressed under Condition 16 of the extant Outline Planning Permission under DM/25/1630. This Reserved Matters submission does not alter the requirements of that condition, nor does it introduce any new information that would necessitate additional contaminated-land controls at this stage. I therefore have no further comments on contaminated land issues in relation to this Reserved Matters application, subject to the continued discharge of Condition 16 under the Outline consent.
