Dear Stefan Galyas,

I am emailing you regarding oaklawn, sandy lane crawley down, I live next door in Newlyn, and have concerns regarding the size of the new proposed property and the height of it , This is a green belt area and the new construction is much larger than the present property. We have problems with the waste water drainage, as this new property will create a lot more waste, I feel this will cause even more problems, The new property is not in keeping with the surrounding area and will effect the badgers and wildlife in the area.

Kind regards
