3. Description of Proposed Works

Please describe the proposed works:

Demolition of existing Conservatory. This is over 20 years old and is impossible to heat in winter (despite a large radiator) and impossible to cool in summer (despite heat reflecting glazing).
In the interests of Conservation it is hoped to re-use some of the existing foundations. A trial pit has shown these to be substantial. A new extension is proposed to provide an open-plan kitchen-dining room with view over and access to the rear garden.
It is intended that the new construction will look as though it was part of the original bungalow. To keep the roof line as low as possible and to ensure that our neighbours are not affected by the new extension the part next to their property will be flat-roofed like the existing conservatory. In architectural terms this small part is intended to refer to the flat-roofed existing garage.

Trees: Tree roots from our neighbour's garden do not reach the position of the proposed extension. In any case, these would receive no rain water from this area as it has long been covered with impervious paving.
